PlanicsDev Infotech LLP | Full-Stack Developer

Sarthana Jakatnaka | October 2025 - June 2026

Proficient in React.js ecosystem including Redux Toolkit, RTK Query, Redux Saga, Context API, custom hooks, and third-party integrations.

Experienced in building RESTful APIs and scalable backend services using Node.js, Express.js, Socket.IO, JWT, Redis, and Bull Queue.

Worked with cloud and storage solutions such as Supabase, Cloudinary, and Multer.

Implemented secure, performant, and reliable systems through rate limiting, caching, cron jobs, and comprehensive error handling.

Developed automation workflows using webhooks, routers, iterators, aggregators, and workflow orchestration tools.

Webito Infotech | Node.js Developer

Mota Varachha,Surat | May 2025 - June 2025

I'm excited to report that I gained knowledge of technologies like rate limiting, cron jobs, Socket.io, Razorpay, Multer, JWT, Bcrypt, Nodemailer, and MongoDB's aggregation pipeline. I'm proud to be the only person on my team to get this recognition, and I appreciate the team's support.
